

Peace DAO Movement

@peace

Owned by [peace.movedao.eth](#)

V1.1

The Peace DAO Movement is a decentralized, member-based organization that was founded to support people impacted by the crisis in Ukraine. Members will channel donations and vote on the direction of funding to organizations, causes, and activities the community supports. The project creators have arranged for subject matter experts to conduct town halls, evaluate proposals and advise on the best use of proceeds. As an incentive for community participation, the DAO will airdrop NFTs as awards to contributors. Ongoing community nominated Peace Movement leadership will also curate both visual and music NFTs, some of which will be exclusive to members. ryan-breslow.eth will match Peace DAO at 100%.
